Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 16 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by Eggleston et al., USPN 5,958,006 (hereafter referred to as Eggleston).
3. Regarding claims 16 and 19, Eggleston taught a system for delivering emails to a user (column 2, line 66 – column 3, line 8), comprising:

a network-connected server for receiving and processing the email files (column 9, lines 3-8);

a database at the network server for storing user preferences used by the network-connected server for processing the emails (column 8, lines 14-18, column 8, line 56 – column 9, line 8);

a wireless transmission facility in communication with the network-connected server, for transmitting the emails (column 4, lines 29-35, 52-66); and

a portable playback device enabled to receive the emails transmitting by the transmission facility and to display the emails as text to the user (column 10, line 56 –

Art Unit: 2145

column 11, line 6); wherein the user edits the user preferences in the database via a wireless transmission to the network-connected server (column 9, lines 44-54).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 18 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eggleston in view of Wicks et al., USPN 5,949,326 (hereafter referred to Wicks).

6. Regarding dependent claims 18 and 21, Eggleston does not specifically teach the network is the Internet network. However, Wicks taught the network is the Internet network (column 3, lines 19-28). It would have been obvious to one of ordinary skill in the art at the time the invention was made that substituting Wicks' Internet for Eggleston's network would have provided a communication medium for open access to other application programs. The motivation would have been to provide access to Internet services through Internet service providers.

Response to Arguments

7. Applicant's arguments with respect to claims 16, 18-19, 21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrice Winder whose telephone number is 571-272-3935. The examiner can normally be reached on Monday-Friday, 10:30 am-7:00 pm.
